YOUR VILLA... ON THE SEA

PRESTIGE M8: A THE NEW DIMENSION IN COMFORT

PRESTIGE has created the biggest multihull of the M-Line range, offering unrivalled living space, for a new way to experience the sea. The M8 is a high-end catamaran for an all-new generation, combining both comfort and luxury with bright living areas.

The design of this multihull is based on a perfect balance of four key strengths: comfort, conscious luxury, environmental awareness, and natural stability. She promises smooth, enjoyable cruising for a more reasoned and sustainable cruising experience, ***in harmony with nature.***

NEW LIVING SPACES FOR EXCEPTIONAL COMFORT

This yacht, affording 275 m² of living space, has been designed for unparalleled comfort with generous, bright rooms that feel like home... A villa on the sea. Unique on the market, this catamaran features a new hull designed solely for this model, a 100% power catamaran.

This concept has allowed the creation of a multihull that is trimmer than a sailing catamaran, yet higher, able to offer unequalled volumes of space and unprecedented dimensions for incomparable well-being on board.

The M8 features full-beam cabins, spacious suites for a more comfortable, functional, and luxurious life on board.

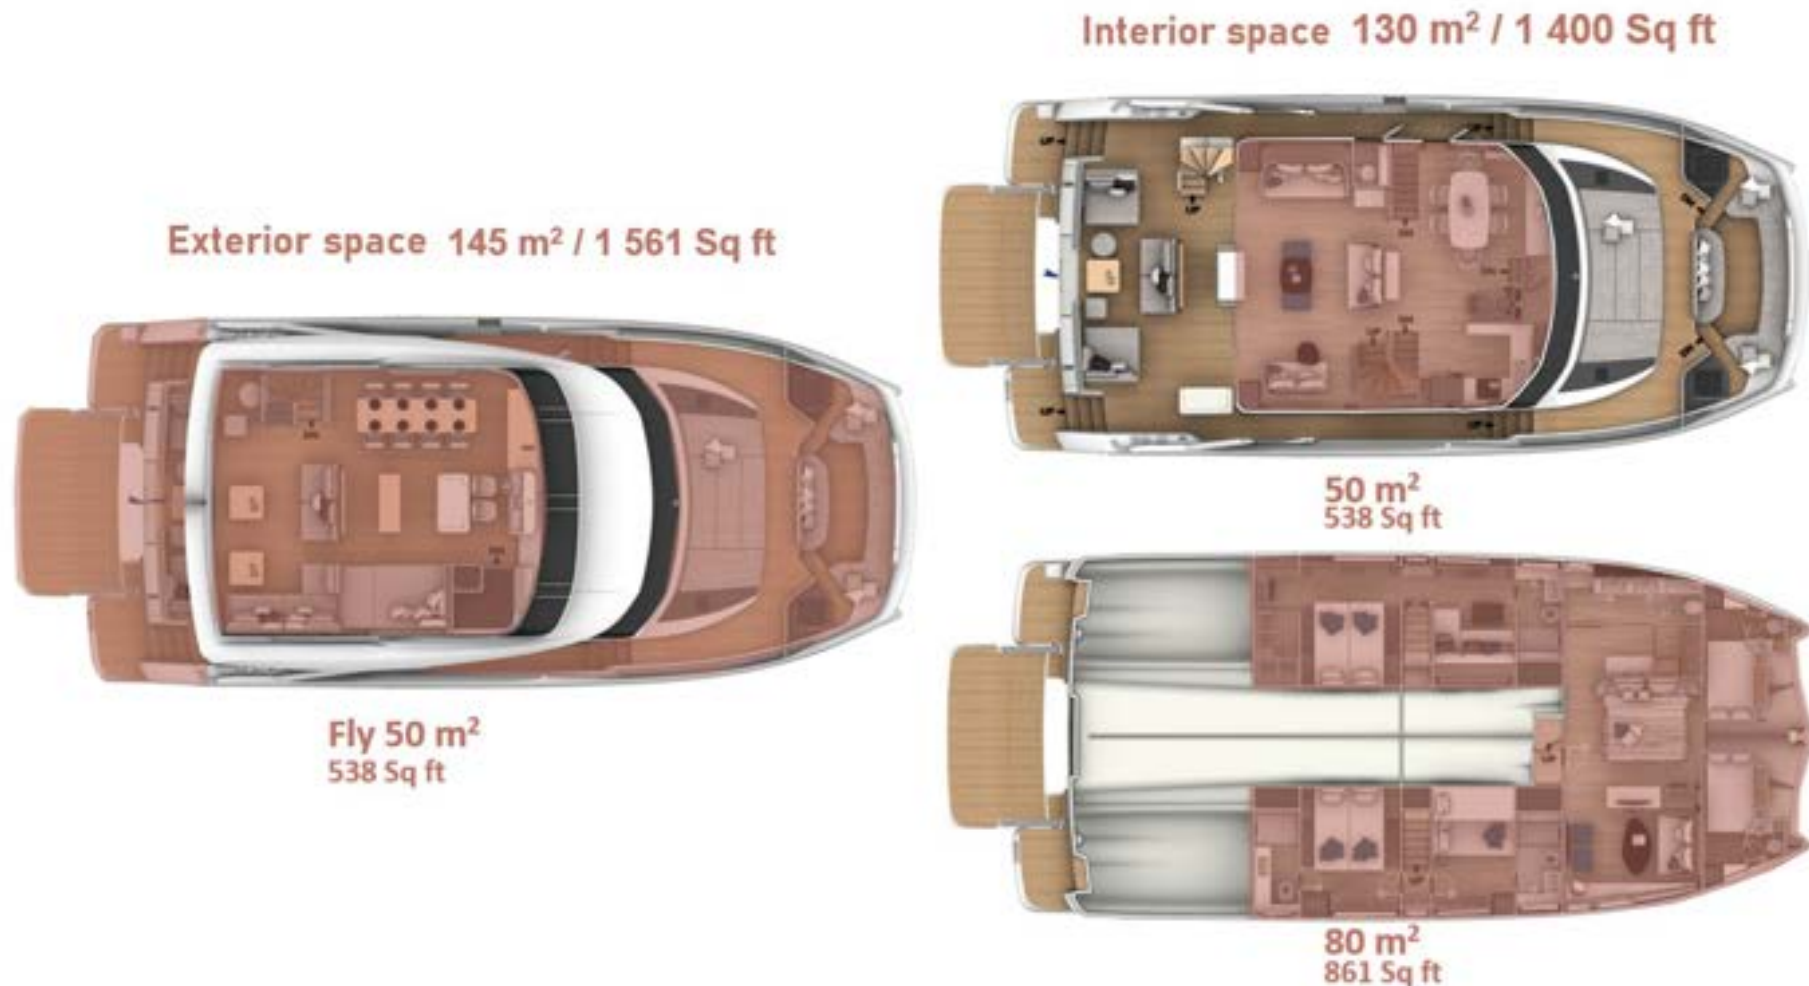

Version without solar panels

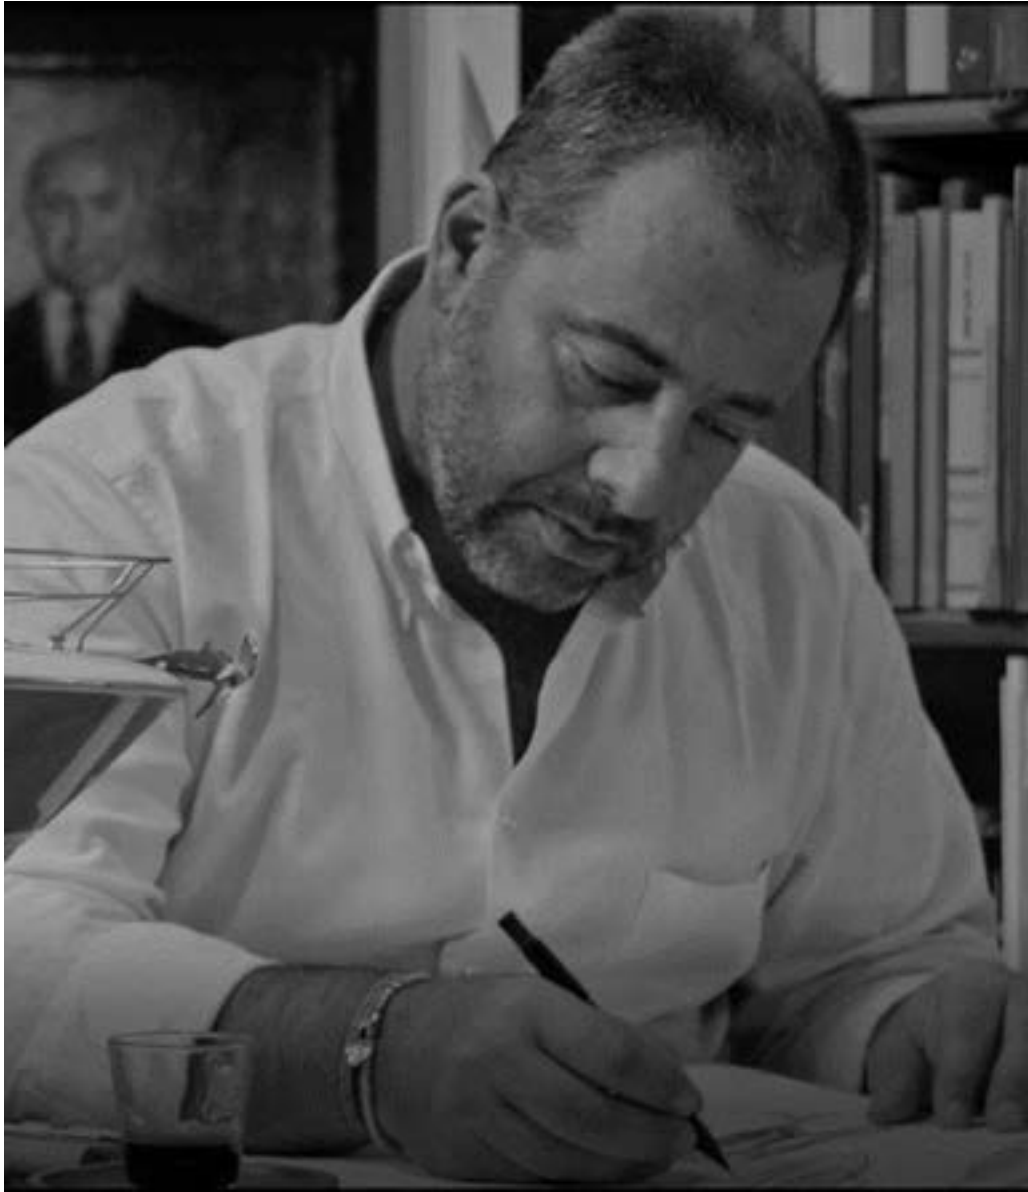

OPTIMIZATION OF THE LAYOUT : A PRIORITY

275 M² / 902 SQ FT OF LIVING SPACE

Offers as much living space as an 85 feet monohull !

A STROKE OF THE PEN: THE LUXURY OF PRESTIGE

PRESTIGE has always offered our customers space, comfort, light, and innovative layouts.

Garroni Design has created this new range of powercats to offer our customers a new frontier in stability and the distribution of space on board, while maintaining continuity with the design heritage of PRESTIGE.

The "M- serie" is a completely new project for "Prestige Motor Yachts", aimed at a younger and more modern clientele than that of the "F-serie", but more traditional than the clientele to whom the "newborn X- serie" is addressed.

CONSCIOUS LUXURY

"A catamaran is, by definition, a place for meeting, sharing, and above all for fun, but it is also the place where sky and sea meet and merge: this is where the inspiration for the concept and color palette comes from... Miami!

An iconic modern city, turned toward the future, the Miami skyline sweeps freely on the horizon between sky and sea. This is the mood that guided the selection of colors, new materials, and new fabrics." **Valentina MILITERNO DE ROMEDIS**

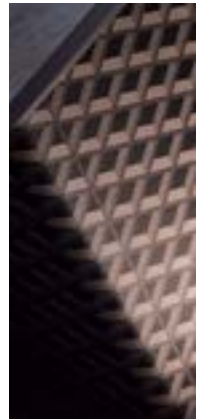

CONSCIOUS LUXURY

REFINEMENT, DOWN TO THE SMALLEST DETAILS

Refined, streamlined, contemporary living spaces with sumptuous details...

Combining elegance and high-end design, the M8 catamaran is available in different versions on the interior, featuring new colors, new materials, and a level of fit and finish worthy of the greatest yachts.

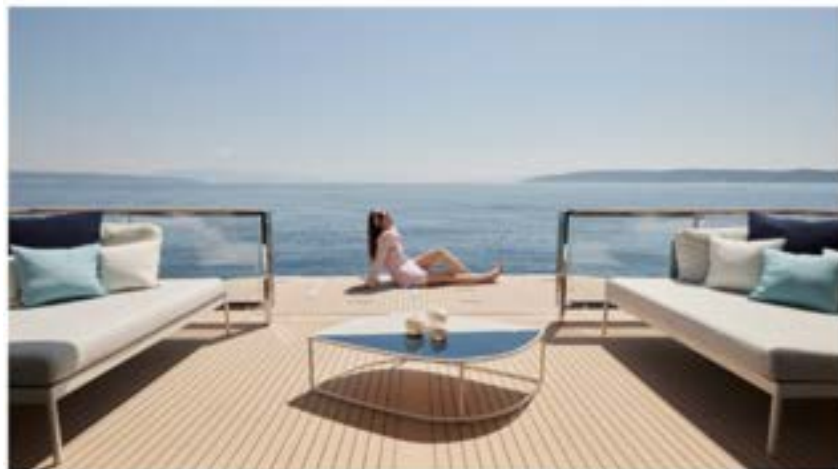

HIGH-QUALITY FIT AND FINISH

- Harmonious shades and high-quality fabrics
- Furniture selected from the most prestigious brands

All exterior furnishings are from the BASKET collection by RODA, constructed from materials that are perfectly adapted for use at sea.

They also offer considerable weight reduction, with a lighter, airier style than traditional polyester seating, as well as new modular possibilities.

R O D A

HIGH-QUALITY FIT AND FINISH

All exterior furnishings are from the collection by Tribu Luxury Furniture for the second version. Tribu is renowned for its exceptional craftsmanship, blending traditional manufacturing techniques with contemporary expertise to create one-of-a-kind high-end furniture pieces.

- The use of the finest materials
- Meticulous attention to detail, and a refined aesthetic

TRIBU

HIGH-QUALITY FIT AND FINISH

An elegant, refined interior has been created with the expertise of **Reflex Angelo**, an Italian manufacturer.

- Furniture and accessories express a perfect synthesis of technology, design, research, and tradition.
- Delicate craftsmanship of 100% recyclable glass, with a precise and unique savoir-faire, ensures quality and durability of the interior furniture.
- Leathers and fabrics perfectly combine high-end contemporary design with traditional savoir-faire.
- High-quality materials lend a sumptuous feel.

All interior furnishings, leather, and fabrics are by REFLEX ANGELO, and the sofa, "SEGNO," is by the world-renowned Italian designer: **Pininfarina**.

HIGH-QUALITY FIT AND FINISH

AN ENVIRONMENTAL AWARENESS

Cruising in harmony with the sea enables you to fully reconnect with nature.

Owing to its hull characteristics, this model consumes half as much as a monohull of the same dimensions.

- A significant reduction in fuel consumption
- A broad range of cruising speeds (between 8 and 18 knots)
- Significant reduction in CO² emissions

In addition to lower costs, carbon emissions are reduced for more environmentally responsible cruising.

CONSUMPTION

SPEED	Monohull 85'	M8
9 kts	80 l/hrs	31 l/hrs
12 kts	140 l/hrs	123 l/hrs
17 kts	240 l/hrs	180 l/hrs
21 kts	420 l/hrs	239 l/hrs

A significant reduction in fuel consumption between a monohull and the M8

CONSUMPTION

Lighter = Regulated consumption
- AT CRUISING SPEED

85' Monohull

17 kts cruising speed
After 300 hours

72 000 L

Consumed

M8

17 kts cruising speed
After 300 hours

54 000 L

Consumed

COST SAVING:

38 700€

CONSUMPTION

How is it possible ?
Why ?

- "The catamaran hull drags 30% less water than the traditional monohull.
- It allows a yacht to be very spacious, very wide, without being heavy. The yacht does not require large and heavy engines to be powered.
- The result of this is that the M8 has engines that are 50% lighter, that burns much less fuel, still providing a huge amount of space, equivalent in real estate as an 85' monohull."

Rosalie LE GALL

UNRIVALLED STABILITY

The new M8 catamaran, with its unique architecture, features a natural stability for efficient, enjoyable cruising in any sea conditions.

This multihull has been designed for great maneuverability and facilitated docking. Balanced weight distribution in the hull yields exceptional stability and comfort.

The M8 enables you to enjoy all living areas in ideal conditions, including open decks, such as the flybridge, which are traditionally more exposed. Reduction in rolling is remarkable, as much at anchor as while cruising, and at any speed, since the hull of a catamaran does not need to plane to gain stability.

The M-Line delivers smooth, enjoyable cruising and offers a unique PRESTIGE experience.

UNLIMITED LUXURY SPACES

"Go beyond the limits of comfort on the sea"

This new multihull offers unconditional living spaces through its luxury:

- **A huge and convivial flybridge:** table for 8 to 10 people, large lounge space with sunpads
- **A cockpit with infinite perception:** open and oriented towards the sea
- **A large aft terrace** which extends the cockpit, for convivial moments above the sea
- **A XXL forward saloon**, dedicated to sunbathing and to moments of relaxation
- **An indoor saloon**, spacious, open and luminous with a modern and refined design

BRIGHT AZURE VERSION

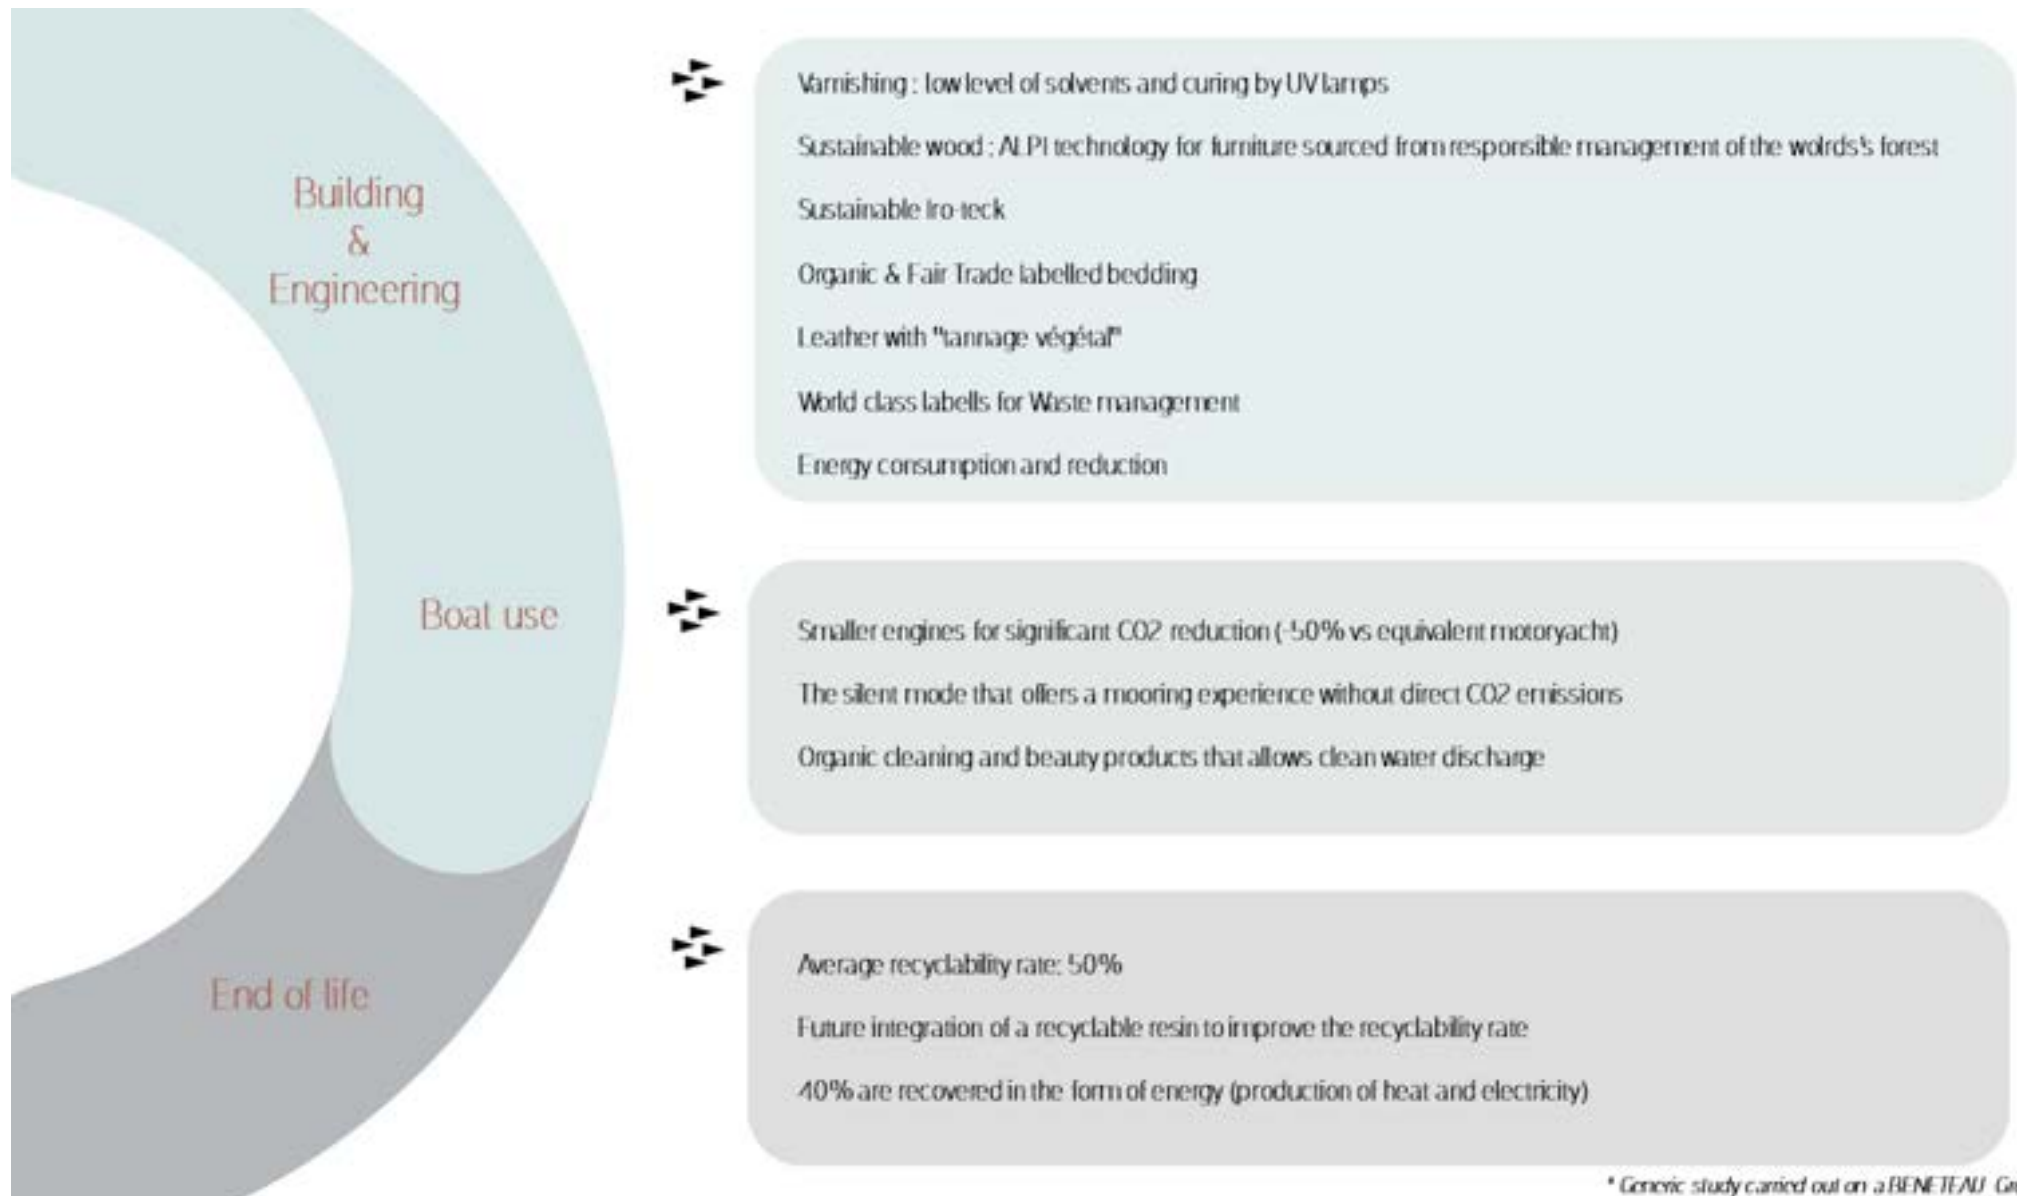

UNLIMITED LUXURY SPACES

VERSION WARM SAND

AN ECO-RESPONSIBLE ATTITUDE

* Generic study carried out on a BENEteau Group model

IN LINE WITH THE ENVIRONMENT

- An eco-design approach: environmentally friendly manufacturing process and the use of products with a low impact on the environment. Reduced consumption and emissions
- New material integrated into our composite parts used for the conception of the structural parts of the boat: **PET foam core***.
 - **Ecological:** the product is recyclable/recycled and has no chemical treatment. It also contributes to the reduction of CO2 emissions thanks to a low-polluting transport.
 - **Lightweight and malleable:** considerable weight reduction. It avoids weakening of the structure in case of collision or overload of the boat.
 - **Resistant:** the foam absorbs damp in case of a leak and does not decay in the hull.

* composite part used in the sandwich method of shipbuilding.

INFUSION

Which traps solvents and prevents release of volatile organic compounds into the air

ECOLOGICAL PRODUCTS

Varnishing/ low level of solvents and curing by UV lamps

RECYCLABLE COMPOSITE

Use of PET foam, which is 100% recyclable by the water bottle industry and 10% recycled.

"An eco-responsible attitude with a high level of commitment."

IN LINE WITH THE ENVIRONMENT

"Combine ecology and economy"

- ✦ The search for committed, ecologically sensitive partners: a high-end, ethical and organic alliance
- ✦ PRESTIGE M-Line guarantees optimal fuel efficiency, thanks to the catamaran hull design. It is 30% more efficient than a monohull of equal length.
- ✦ Trust and reliability: worldwide renowned certifications and a world-class warranty
- ✦ Fair trade & responsible commitment to the world's forests: use of natural materials

CONSCIOUS LUXURY

Mona Lison (organic bed linen) - Villeroy & Boch (energy efficiency and choice of raw materials) - Foglizzo (preservation the natural beauty of leather)

RECOGNIZED LABELS

Certified for the quality of conception and construction, for environmental protection

SUSTAINABLE

Wood: sourced from responsible management of the world's forests

EFFICIENT CRUISING

An optimal fuel efficiency thanks to the catamaran hull design

SERENITY

First class warranty: now and for the future

NATURAL MATERIALS

Fair-trade, bio/organic materials for bedding

KEY FEATURES

- A Hardtop STANDARD (electric opening roof in option) or possibility of solar panels
- B Sun awning at the back of the fly (option)
- C Foredeck with lounging area
- D Acces to the side deck from the saloon (sliding door on starboard)
- E STANDARD RODA furniture (different layouts possible)

FLYBRIDGE

- A** Access to the Fly from the cockpit via a turning staircase
- B** Lounge area with coffee tables and sofas (option)
- C** Central bar
- D** Convivial dining space can accomodate 8 to 10 people
- E** Lounge area with sunpad
- F** Fully equipped main steering station
- G** Galley with sink, grill (option), fridge and storage
- H** 2nd access to the fly from the main deck (stairs with sliding opening)
- I** Storage space

AN EXCLUSIVE FLY

- A huge flybridge: 50 m² / 164 sq ft
- Rigid hardtop in STANDARD (optional electric sunroof)
- Flybridge enclosure (option)
- Very big convivial space: with lounging areas and huge dining table: can accomodate 8 to 10 people
- Fixed sunpad
- RODA furnitures with possibility of different layouts

AN EXCLUSIVE FLY

Other furniture proposal : TRIBU

GARMIN®

PRESTIGE M8 - ELECTRONIC PACK

Fantom 18x - Solid-state radome with MotionScope Technology™

- **50 W Solid-state dome radar** (Low power consumption, instant turn on and no warm up delay)
- **MotionScope™ technology** uses the Doppler effect to detect moving targets so you can avoid potential collisions
- Basic features: Dynamic Auto Gain, Sea Filter, MARPA support, Radar overlay, Guard zone
- **Advanced features:** Auto Bird Gain, Echo Trails, Pulse Compression, Target Size, Dual Range
- Excellent close- and long-range detection from 6m to 48 nm

VHF 315i / VHF 315

- Up to 25W transmission output
- **All functions and settings are managed via the GHS 11i/GHS 11**
- 4" active speaker with volume knob (supplied)
- Initiate a VHF call directly from your Garmin NMEA 2000 plotter and VHF
- Full Class D Digital Selective Calling (DSC) with built-in DSC receiver
- VHF 315i fits for **EMEA** / VHF 315 fits for **US/Canada**

GPSMAP® 9022

- **2x 22" (4k IPS touchscreen display) at the fly**
- Built-in 10Hz GPS/GLONASS/GALILEO receiver
- **Built-in Wi-Fi™ for ActiveCaptain™ connectivity**
- **Radar compatible**
- NMEA® 0183 and NMEA® 2000 compatible
- **AMS Compatible**

AIS 800 - AIS Transceiver Black Box

- AIS Transceiver Black Box
- Integral splitter box
- Integrated AIS target data with information displayed directly on the chartplotter
- **ClearTrack™ technology** ensures that reception is uninterrupted
- Alarm (CPA) via Radar to avoid collisions
- Integral GPS receiver and Dual channel AIS receiver
- Class A and class B reception

Reactor™ 40 Volvo Penta

- **Developed in close partnership with Volvo Penta**
- **Solid-state 9-axis AHRS**, reacts to the sea to hold course, even when the boat is unstable
- Minimises heading error, course deviation, rudder movement, power consumption, while providing a comfortable ride
- Minimal commissioning and calibration
- Provides advanced features to compatible Garmin chartplotters such as route following, route engage, and Autopilot Virtual Device

GSD 25 (Premium CHIRP and Scanning Sonar Module) + Airmar B117

- Includes true **dual-channel 1 kW CHIRP**, plus CHIRP SideVü and ClearVü scanning sonar for the clearest images on the water
- Thru-hull bronze transducer with **50/200kHz** traditional sonar
- Transmitting power : **600W**
- **Water temperature sensor**

PRESTIGE M8 - OPTIONS

GMR™ Fantom 54 - Solid-state Open array radar with MotionScope Technology™

- **50 W solid-state open-array radar with pedestal** (Low power consumption, instant turn on and no warm up delay)
- **MotionScope™ technology** uses the Doppler effect to detect moving targets so you can avoid potential collisions
- Basic features: Dynamic Auto Gain, Sea Filter, MARPA support, Radar overlay, Guard zone
- **Advanced features:** Auto Bird Gain, Echo Trails, Pulse Compression, Target Size, Dual Range
- Excellent close- and long-range detection from 6 m to 72 nm

GPSMAP® 8416

- **16" full HD IPS touchscreen display**
- Built-in 10Hz GPS/GLONASS/GALILEO receiver
- **Built-in Wi-Fi® for ActiveCaptain™ connectivity**
- **Radar compatible**
- NMEA® 0183 and NMEA® 2000 compatible
- **AMS Compatible**

Surround View Camera system

- Live **Bird's-eye view** helps you maneuver your vessel.
- Dock and maneuver in tight confines with **full 360-degree helm visibility**
- **Visual Bumper** feature helps the captain see when docks, piers or other objects breach preset barrier limits around the boat.
- In tight maneuvering situations, **distance markers** around the boat provide visual cues to help maintain safe clearance and separation

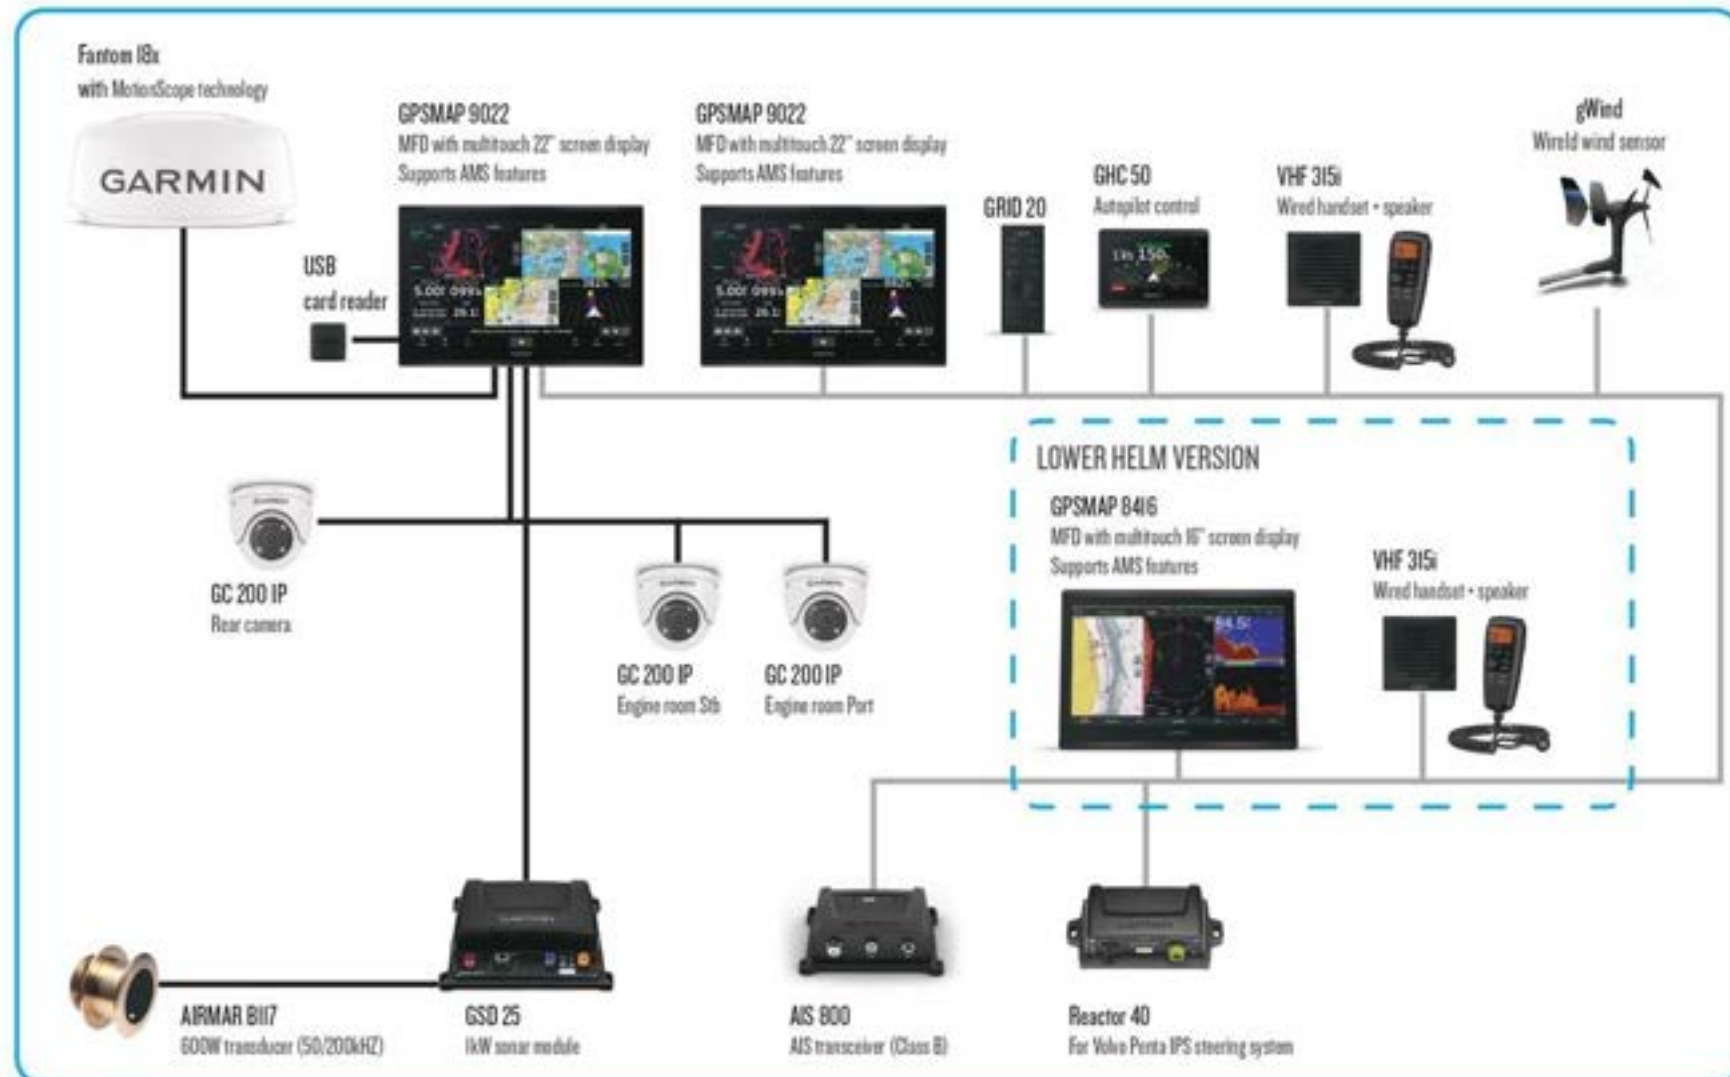

GT51M-THP - Scanning sonar transducers

- Perfect for the coastal and offshore fishing
- Provides clear and crisp fish arches with superior target separation as well as clear pictures of objects, structure and fish that pass below and to each side of your boat
- Traditional CHIRP : 600W (mid-band CHIRP 80-160 kHz)
- CHIRP ClearVu/SideVu : 500W (CHIRP 260/455 kHz)

STORAGE VOLUMES

4 STATEROOMS 4 BATHROOMS

- A** Storage for fenders : L0.6m x W1m x H0.8m approx
- B** Storage for fenders : L0.6m x W1m x H0.8m approx
- C** Chain locker storage for fenders : L0.6m x W0.6m x H1.6m approx
- D** Wheelhouse technical electricity : L1m x W0.8m x H0.8m approx
- E** Wheelhouse technical electricity : L1m x W1m x H0.8m approx
- FG** Cockpit storage : L3.5m x W1.7m x H0.9m approx
- H** Engine room : L1m x W2.1m x H2m approx
- I** Owner cabin under floor access : Passage 0.68m x 0.5m Owner cabin under floor : L1m x W1.5m x H1.7m approx

CONFIDENTIEL - NE PAS DIFFUSER EN DEHORS DU RESEAU PRESTIGE

HEADROOM

- A Cockpit: 216 cm / 708'7"
- B Main deck: 200 cm / 656'2"
- C Owner's stateroom: 195 cm / 640'
- D VIP stateroom: 198 cm / 650'
- E Guest staterooms: 195 cm / 640'

THE CHOICE OF AIR-CONDITIONING

TERMODINAMICA

MARINE INVERTER AIR CONDITIONING

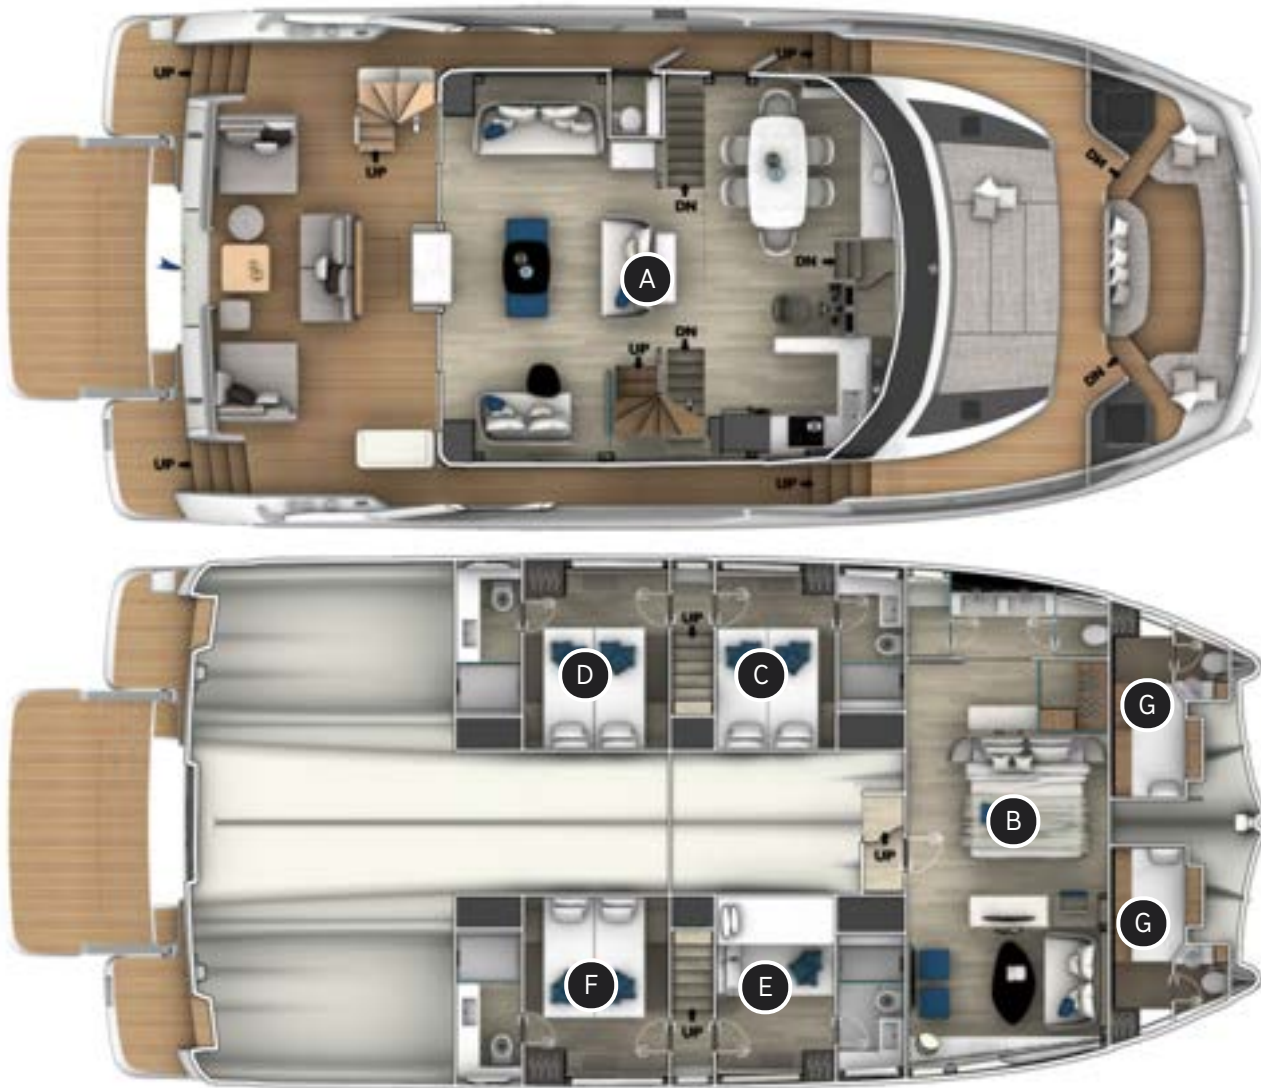

A TERMODINAMICA air-conditioning system that is efficient and very low on consumption:

A system that comes from the world of the largest yachts.

Benefits :

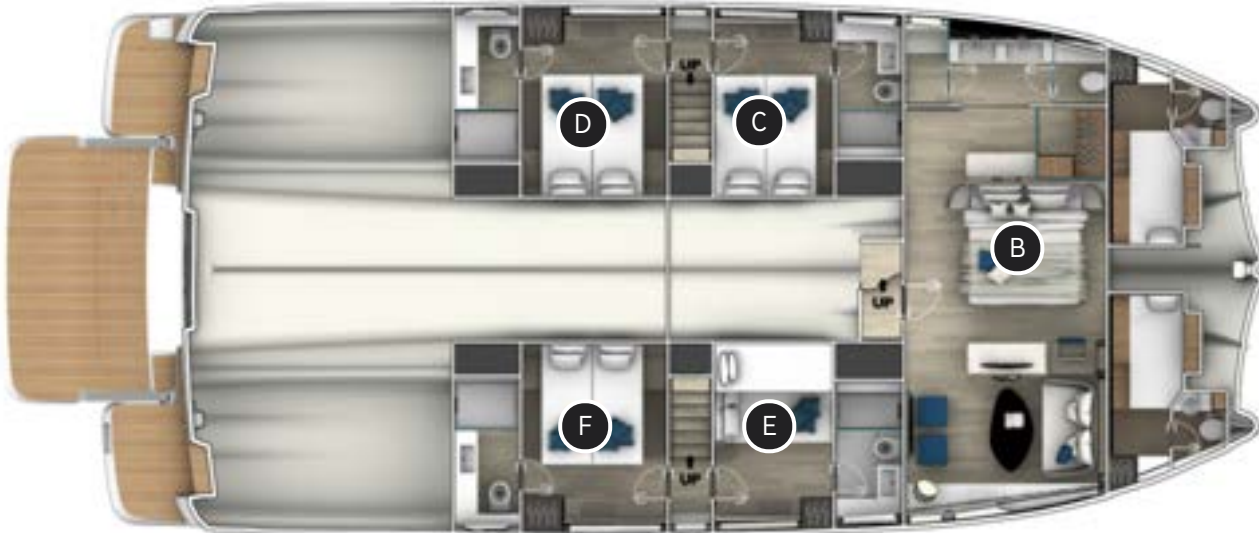

- Performance / efficiency / yield
- Weight gain
- Power consumption (5KW for 4 TERMODINAMICA instead of 20KW for traditional chilled water air conditioning)
- Allows for a reduction in the power of the generators

MEDITERRANEAN AIR CONDITIONNING : 150 000 BTU - 5 STATEROOMS - STANDARD

- A Air handler 84 000 BTU
- B Air handler 25 000 BTU
- C Air handler 9 000 BTU
- D Air handler 10 000 BTU
- E Air handler 9 000 BTU
- F Air handler 10 000 BTU
- G Air handler 2 000 BTU (option)

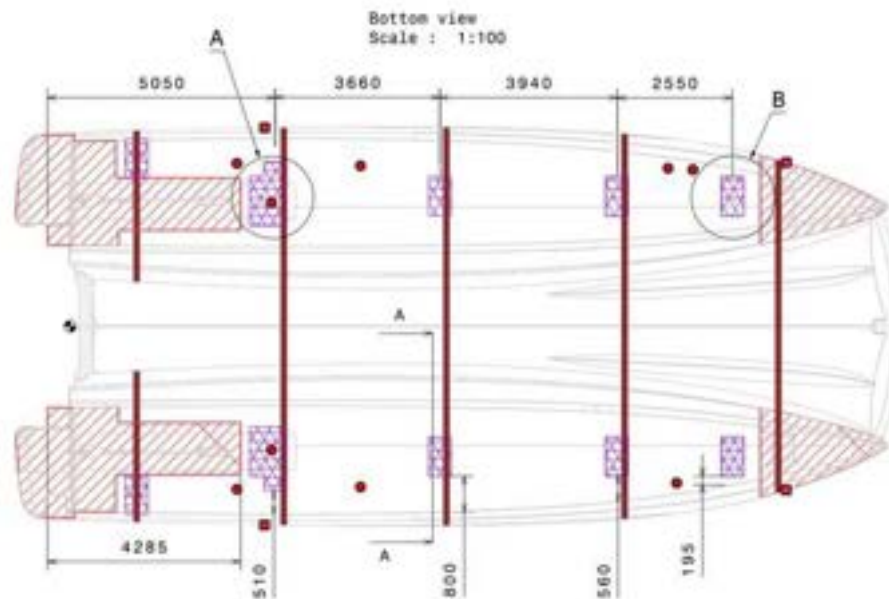

TROPICAL AIR CONDITIONING : 190 000 BTU - 5 STATEROOMS - OPTION

- A** Air handler 110 000 BTU
- B** Air handler 30 000 BTU
- C** Air handler 11 000 BTU
- D** Air handler 12 000 BTU
- E** Air handler 11 000 BTU
- F** Air handler 12 000 BTU

PACKING PLAN

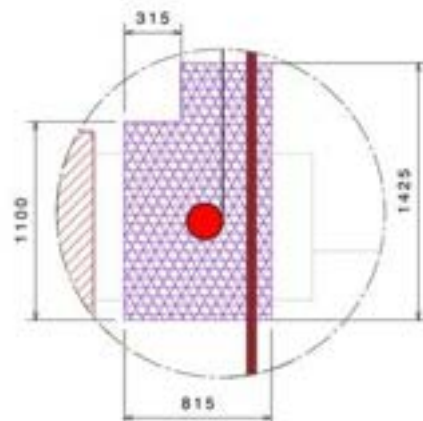

- area for grounding and lifting
- forbidden pillars and belts area
- structural bulkheads
- thru-hull
- camera

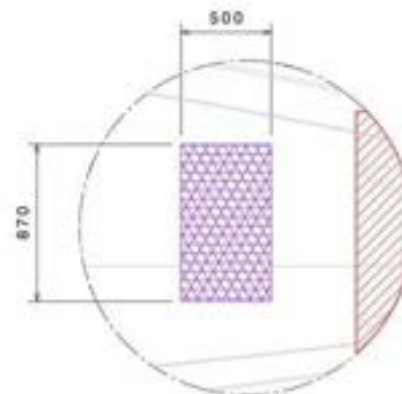

NOTE 1 :
-The drawing explains a hypothesis of lifting.
-The lifting procedure is delegated to the supplier, the straps must be positioned across bulkhead and frame.

NOTE 2:
In order to position the grounding pillars :
-be only on grounding area
-be on a clear area of thru-hulls and cameras
